- 2 versions: Single version (down) or Double version (up + down),
- IP 54 - Dustproof and resistance for splashes of water,
- Possibility of individual power plus a light source with a colour/temperature selection.

Kanlux

Modern & innovative shape

A raw, and very classic line of outdoor façade light fixtures used to accentuate architectural details. Comes in anthracite or aluminium casing which gives these lamps a elegant Scandinavian feel.

Kanlux LART present itself as the single unit or in the set of several luminaires..

Kanlux

It perfectly emphasizes facade values

Kanlux LART present itself as the single unit or in the set of several luminaires.

Thanks to its form and delicate structure it fits perfectly with the any kind of facade.

For example: signs and entrance areas, specifically illuminated light columns etc.

LART adds character to perfectly smooth surfaces, and when on raw facades will create an industrial climate.

Additionally you can also choose to have either one or two directional fittings which will allow you to highlight selected elements of walls and facades, as well as highlight what may be below.
