Kanlux ALIN IU

We are proud to introduce a new version of one of our most popular lighting fixtures, manufactured from scratch at the Kanlux Factory.

Responding to the dynamic needs of the market, we have developed a versatile 1420 mm model that allows for the adjustment of power and light intensity during installation.

5-YEAR WARRANTY SUBJECT TO THE TERMS OF THE WARRANTY STATEMENT AVAILABLE ON OUR WEBSITE.

You decide the light output!

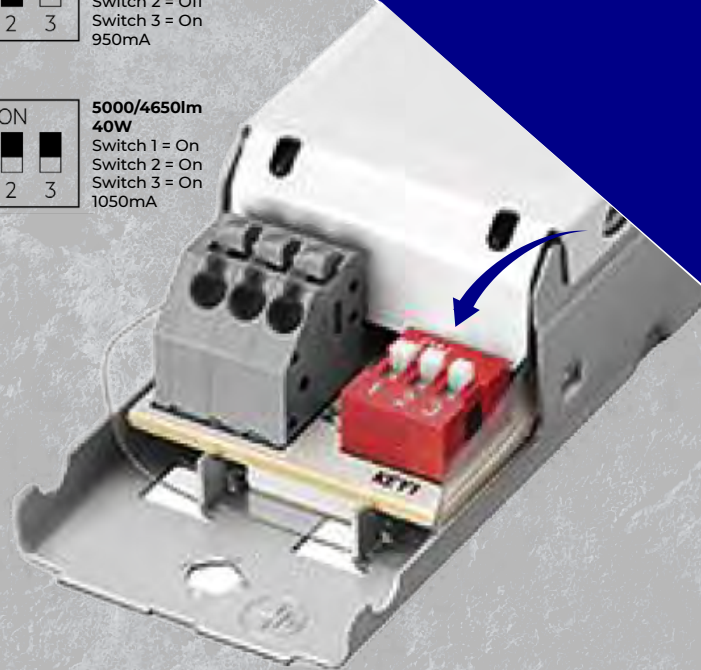

No need to order fixtures with different power ratings for a single project anymore.

Our advanced driver with DIP-SWITCH technology puts total control in your hands.

Thanks to fast and intuitive adjustment via microswitches, you can precisely tune the fixture's power directly during installation.

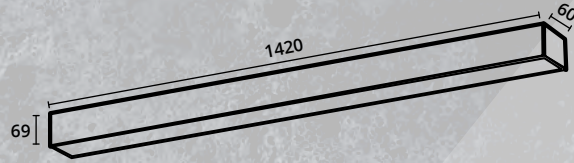

This solution offers not only significant time savings but also the certainty that the light intensity will perfectly match the requirements and scale of any space.

You don't have to decide on the lighting scheme in advance. Whether your space requires powerful task lighting or more subtle zonal illumination, you can make the final choice once the interior takes its final shape.
