Replaceable light source (GU10) – full control over lighting

Choose the light output (max 10W) and color temperature yourself
– your preferences come first!

recommended XLED GU10 source
from the KANLUX offer

Modern design - elegance and functionality

A simple, geometric form with slightly rounded shapes fits into the current trends in the arrangement of outdoor spaces.

Durability and resistance to weather conditions

The aluminium housing and tempered glass cover guarantee durability, and the **IP54** protection class protects against external conditions.

Complete series – 8 indexes

Complete series – 8 indexes
