Declaration of Conformity with the "Data Act" Requirements

SMART line products operate on the basis of a related service provided by TUYA. This information is displayed during user registration in the Smart Life application, which is required in order to use the product.

Connected products generate data regarding their operation and use. Depending on the type of device, these include system logs, event logs, status logs and operating parameters such as on or off status, correlated colour temperature value, light level and energy consumption. This data is saved in CSV format. The estimated volume of data may vary depending on the device type and the frequency of use. This value may amount to approximately a dozen kilobytes up to approximately a dozen megabytes per month.

Connected products are capable of generating data continuously and in real time, for example in the form of uninterrupted parameter readings or ongoing device status monitoring. Real-time data transmission is possible when the product is connected to a Wi-Fi or Bluetooth network.

Data generated by connected products is transmitted to the Tuya cloud, where it can be stored and made available to the user. Connected products store data on cloud servers, and it is retained by default for 7 days. Kanlux Smart products do not store data themselves.

Users can view, retrieve, and export their data in the app by following these steps: Go to the 'Me' page in the app → Tap the settings icon in the top right corner → Manage Privacy Policy → Export device data → Select the device to export → On the preview page, you can view the device data; to export, tap the export icon in the top right corner of the preview page and enter the email address to which the exported data should be sent. Users can delete their data at any time by removing the device and selecting the 'Delete data' option.

The list of Kanlux SMART series products is given below:

33640   S A60 7W E27 CCT *SMART LED LAMP
33641   S A60 9W E27 RGBCCT *SMART LED LAMP
33642   S A60 11.5W E27 RGBCCT *SMART LED LAMP
33643   S GU10 4.7W RGBCCT *SMART LED LAMP
33644   S C37 4.9W E14 RGBCCT *SMART LED LAMP
33703   SAD GN 16A PM *SMART SOCKET ADAPTER
33704   SAD GN SCH 16A PM *SMART SOCKET ADAPTER
34940   S SENSOR PIR INT 10M *MOTION SENSOR
34941   S SENSOR W INT *FLOOD SENSOR
34942   S SENSOR ON/OFF INT *OPENING SENSOR
34948   S SWITCH ON/OFF *ON/OFF RELAY
34949   S SWITCH SHUTTER *SHUTTER RELAY
34950   S SWITCH G DOOR *RELAY/GATE
38610   S PLAFON 20W CCTDIM B *LED LUMINAIRE
38611   S PLAFON 20W CCTDIM W *LED LUMINAIRE
