Kanlux TURRO LED is a durable in-ground luminaire with a non-replaceable light source. The luminaire is made of the highest quality materials and with attention to every detail. Thanks to the high IP67 tightness and resistance to mechanical damage IK10, this luminaire is perfect for illuminating driveways, alleys, sidewalks, etc. Kanlux TURRO LED also has a high luminous flux, so we can also use it in large spaces.

- Enclosure material: aluminum alloy
- Protective glass material: Tempered glass
- Panel/frame material: stainless steel
