

Kanlux

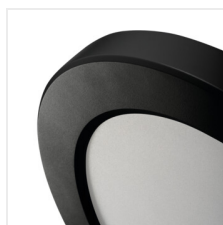

Kanlux ERGA

Kanlux ERGA is a family of versatile downlights that can be mounted on ceilings (recessed or surface-mounted) and walls. Available in classic white and black, they blend seamlessly with a variety of interiors. Equipped with CCT technology, it allows for a choice of color temperature and a choice of either a PIR motion sensor or no sensor. Sensor adjustment and CCT settings are concealed under a removable frame, ensuring aesthetics and ease of use. The fixtures are covered by a 5-year warranty, confirming their reliability and durability. An additional advantage is the flexible adjustment to the mounting opening using the included bracket – from 65 to 160 mm.
