Kanlux VARSO CCT

Kanlux VARSO CCT is a new version of the popular VARSO sealed ceiling luminaires, offering even greater flexibility in adapting lighting to the user's needs. All models in this series allow you to select the colour temperature (3000K / 4000K / 6500K) as well as one of two power levels, making it easy to match the fitting to the size and function of the room. The round fittings are available in two sizes, with or without a motion sensor. Additional advantages include easy installation, IP54 protection rating, evenly diffused light and a 5-year warranty.
