Kanlux L48 is a tape that allows you to change the color of the light freely. You will conjure up any light installations and create your dream atmosphere. You can choose between two versions of IP00 and IP65. The IP65 version is designed for places where it can be exposed to moisture, it does not differ significantly in size from the IP00 version - this is important for installation in aluminum profiles, which will not be a problem.

- 3 years Warranty under the terms of the warranty statement, available on our website
- Proper controller and remote (CTRL 12/24V 10A RGBW 22143, REMOTE RGBW 22146) available in Kanlux offer are required for correct operation.
