Kanlux RAIBO is a fashionable retro desk lamp. It is available in 4 pastel colors as well as in the popular black and white. The base has a built-in organizer with a handle in which you can put a phone, pens or glasses. A large lampshade, in which we can fit a bulb with an E27 base, is a wide light distribution. The retro influence is visible here, but also attention to detail and a solid finish (steel). We also paid attention to the underside of the lamp and added a foam pad to keep the lamp from scratching the desk.

- Enclosure material: Metal
