Kanlux ARVOS N

Kanlux ARVOS N are ceiling-mounted lights that combine modern design with advanced functionality. Thanks to the light colour adjustment (3000 K, 4000 K, 6500 K) and dimming function, you can easily match the lighting to the mood and character of the interior. With a power of 37 W and a luminous flux of up to 2680 lm, the luminaires provide comfortable lighting for larger rooms such as living rooms, bedrooms or even office spaces. An additional feature is the Night Light mode, providing a soft night light of 3000 K. The polycarbonate housing ensures high durability of the luminaire.
