

Kanlux

Kanlux XLED HP D46

Kanlux XLED HP D46 is a solid light source with a transparent bulb and E40 base. It combines high quality workmanship, exceptional durability, providing 20,000 hours of reliable lighting and high luminous efficiency. Thanks to the IP65 tightness class (except for the lamp base), the lamp is resistant to dust and water, which allows it to be used in difficult outdoor conditions. An additional advantage is the 3-year warranty, which confirms the reliability and solidity of the product. When mounting outdoors, remember to use luminaires with an appropriate degree of protection.

- For industrial applications (e.g. in manufacturing floors, warehouses, etc.)
- 3 years Warranty under the terms of the warranty statement, available on our website
