

## Kanlux FL STADER

The Kanlux STADER modular floodlight allows you to connect from 1 to 4 modules, thus offering power from 200W (30,000 lm) to 800W (120,000 lm). The luminaire module consists of: housing, LED module, power supply, lens system and cables for connecting/connecting subsequent modules. The luminous efficacy of the floodlight is 150 lm/W, resistance to solids and water penetration IP66, and resistance to mechanical damage IK10. The adjustable handle allows you to precisely set the lighting angle of the luminaire. The housing is cast aluminum with a PC diffuser, and the available color temperature is 4000K. The length of the connecting cables (connection or connection to the next module) is  $\geq 20$  cm. Warranty: 5 years.
