Kanlux STONO MLK

Kanlux STONO MLK is a classic version of garden spheres with a milky diffuser, providing soft, evenly diffused light and a subtle effect after dark. The illuminated spheres, available in diameters of 20, 30, 40 and 50 cm, blend harmoniously into the garden space, creating an ideal backdrop for evening relaxation. Each luminaire is equipped with spikes for stable installation in the ground, and the use of a replaceable light source allows the output to be matched to the character of the arrangement. STONO MLK is timeless, decorative lighting that creates a pleasant atmosphere around the home.
