KANLUX LUMKO LED CCT

Kanlux LUMKO LED 38W CCT is a new version of the ceiling light, combining a simple form with a subtle decorative accent – an ornamental ring that gently highlights its character and gives the overall design a touch of elegance. The fitting offers adjustable colour temperature (3000K / 4000K / 6500K), dimming functionality, and a night mode, while remote control operation allows you to easily tailor the lighting to everyday needs. With its larger diameter (480 mm), it provides even and effective illumination of the space, while maintaining a cohesive and aesthetically pleasing appearance.
