Kanlux LCOB 3W/M 12V

Kanlux LCOB 3W/M 12V LED strips are an economical and practical lighting solution, ideal for applications where low energy consumption and a subtle lighting effect are important. Thanks to COB technology, the light is uniform, with no visible LED spots, ensuring an aesthetic design in any arrangement. The strips are available in two light colours – warm (3000 K) and neutral (4000 K), allowing you to adjust the lighting to different applications. The choice between IP00 and IP65 versions extends the range of installation options to both dry interiors and those exposed to moisture. Compact dimensions and cutting every 25 mm allow for precise length adjustment to suit your project, while a 3-year warranty ensures reliable operation for a long time.

- 3 years Warranty under the terms of the warranty statement, available on our website
