Kanlux ST45 LED is a light source whose bulb is made of plastic, which ensures exceptional resistance to breakage in outdoor conditions. It is a perfect complement to any festoon light, but it will also work well in garden luminaires such as Kanlux VIMO or Kanlux SELTO. ST45 LED lamps have an E27 base and are extremely economical in operation - their power is 0.5W. You can choose traditional bulbs in a natural or warm color, or choose a colored version (RE-red, GR-green, BL-blue) with a power of 0.9W.
