

28305 BIURO+ 04-0023-100

Floor installation box

5905339283054

It is a floor box for installation in technical floors. The box has space for 8 modules 45. This model is characterized by the first class of protection thanks to the metal base. An additional advantage in the design of the cover is a snap lock, which is designed to protect the cables from damage. The BIURO plus series floor box has the option of adjusting the embedment depth, which in turn improves the safety of bending of the connected cables. We can choose from three types of covers: full of plastic, plastic with a stainless steel finish and a cover to be filled with material (the maximum thickness of the insert is 7mm).

GENERAL DATA:

Colour: to fill

Place of assembly: mounted on the ground

Length [mm]: 321

Width [mm]: 231

Height [mm]: 95

TECHNICAL DATA:

Rated voltage [V]: 250 AC

Rated current [A]: 16

Rated frequency [Hz]: 50

Class of protection against electric shock: I

Number of modules: 16

IP class: 20

LOGISTIC DATA:

Packaging method: 4

Number of units in the packaging: 4

Net unit weight [g]: 3350

Grammage [g]: 3770

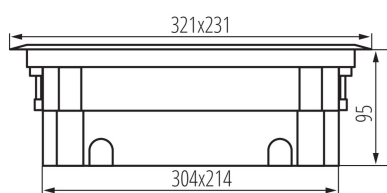

Length of a unit pack [cm]: 35.5

Width of a unit pack [cm]: 26.5

Height of a unit pack [cm]: 13.5
