LED floodlight

Kanlux STATO HI LED is a portable floodlight with high tightness (IP65). Recommended as lighting during renovations or construction works. Adjusting the angle of the floodlight and the stand allows you to illuminate surfaces in many planes, and a higher color rendering index than in most floodlights (CRI = 80) means better visibility of the color of the illuminated surface, which is especially useful in interiors. The Kanlux STATO HI LED model also has higher luminous efficiency - 120lm / W. The set includes a 2-meter cable with a plug.
