Kanlux ELICEO are decorative rings (fixed downlights) with an unusual lighting effect. In addition to the main light source, they also have two luminous rings in the housing, which gives a unique decorative effect. They are available in three colour versions: white, black and white-gold. You can choose your own luminaire for the rings, which will allow you to adapt Kanlux ELICEO to your installation (12V or 230V).
