Kanlux LIEGO garden luminaires are impressive oval-shaped glass lampshades, with which it is possible to use decorative LED filaments that can be an additional decoration illuminating the garden. They can be used not only to light a garden but also gazebos, terraces and patios, while the wall-mounted luminaires successfully illuminate balconies. In the whole family (pendant lamp, posts, wall-mounted), it is possible to use replaceable LED light sources with an E27 base.
